BERK KOCABÖREK

Computer Engineering Undergraduate | Cloud & DevOps / IT Infrastructure

Antalya, Turkey | kocaborek.berkk@gmail.com | Web: berkk.cloud | GitHub: github.com/littleborek

PROFESSIONAL SUMMARY

Final-year Computer Engineering undergraduate at Akdeniz University specializing in Cloud Infrastructure (AWS, Docker, Fly.io), Linux System Administration, Network Security, and DevOps automation. Experienced in architecting self-hosted cloud services, configuring DNS/SSL lifecycle, and building automated pipelines. Seeking a Cloud, DevOps, or IT Engineering internship (remote or on-site) to contribute to scalable systems and solve challenging infrastructure problems.

EDUCATION

Akdeniz University — Bachelor of Science in Computer Engineering (4th Year / Senior) *Antalya, Turkey | 2023 – 2027 (Expected)*

- Relevant Coursework: Computer Networks, Operating Systems, Distributed Systems, Cloud Architecture, Data Structures & Algorithms

TECHNICAL SKILLS

- **Cloud & Infrastructure:** Amazon Web Services (AWS), Docker, Fly.io, Cloudflare (DNS, SSL/TLS, CDN), Linux Server Administration, Nginx
- **Networking & IT Security:** TCP/IP, Firewall Configuration, VLAN, Network Monitoring (Netdata), Cisco Networking Academy Fundamentals
- **Programming & Scripting:** Python, Bash / Shell Scripting, JavaScript / Node.js, SQL, RESTful API Design & Integration
- **Tools & Automation:** Git / GitHub, CI/CD Pipeline Automation, n8n Workflow Automation, Formspree, LeetCode Problem Solving

PROJECTS & HANDS-ON EXPERIENCE

Personal Cloud Infrastructure & Deployment Platform (berkk.cloud) *2024 – Present*

- Architected and deployed containerized web microservices and self-hosted utilities on AWS and Fly.io cloud instances.
- Integrated Cloudflare for enterprise-grade DNS routing, automatic SSL/TLS certificate renewal, and origin shield security.
- Configured infrastructure observability tools to track resource utilization, latency, and uptime in real time.
- Engineered automated workflow hooks (n8n, Formspree) to handle secure form payload ingestion and dispatch real-time alerts.

Technical Engineering Trainee — Ilıcak Proje A.Ş. & Ceren İnşaat *Antalya, Turkey*

- Collaborated on operational IT workflows, structured technical documentation, and cross-departmental data management.
- Assisted in technical requirements tracking and aligning field project logistics with digital management systems.

LANGUAGES & TRAINING

- Languages: English (Professional Working Proficiency - B2/C1), Turkish (Native)
- Training: Cisco Networking Academy (Networking), Anthropic AI Software Training
